Our Goodwill ASSETs Program is a collective group of academic, elective, and athletic focused programs where students can come together in safety and acceptance to build the health, welfare, and betterment of our school community.
Independence High School: Goodwill ASSETs Program

AP Spanish

Students participating in 20 rehearsals/masterclasses with members of SJdanceCO throughout the school year. This culminates in a performance in the Spring and possibly an additional performance in October.

Career & College

Academic counselors leading variety of after-school activities to give students opportunities to be exposed to different colleges and career paths.

Chemistry

Chemistry teachers wish to provide after school tutoring for all chemistry students.

Dance

This program is for athletes and/or fitness enthusiasts to come and work out. Students are tutored and mentored on proper lifting and spotting techniques, strength training regimens, and goal setting. It’s an opportunity for students to build healthier bodies, stronger friendships, and a lasting work ethic in an enjoyable environment.

History & Geography

Mon & Tues with Ms. Grover in A312 & Wed in B306 with Ms. Battrell come do your homework or get help with your essays.

AP Spanish Lit students collaborating with each other and lending a friendly hand.
iCafe

IHS iCafe center provides a safe after-school environment where students can congregate to socialize or study after school. Whether it's waiting for practice of a certain sport to start or parents to arrive for pick up, the iCafe has something to offer to every student.

Psychology

AP Psychology Tutoring through the Goodwill ASSETs Program allows for AP Psychology students to get the extra study time they need to further develop their knowledge within the content. We specifically provide an activity known as a "Recapture." This program focuses on the individual practicing and further developing his/her skill, which has been found to be paramount in college-readiness and success.

Solar Suitcase

Providing students with academic and hands on training in electrical theory, solar power system design and construction of solar suitcases. Students also developing awareness of energy and electrical power needs and issues in the developing world.

Spanish Tutoring

Tutoring offered to levels 2-3 and AP students every other week in D208!
Assistance offered in writing, speaking, listening, and reading.

Wrestling

This program provides an alternative and unique way to stay active, exercise and get fit while learning wrestling and grappling techniques.
No knowledge or prior experience is needed.
Students come to learn and have fun in this social fitness class!
Mon and Wed 3:30PM to 4:30PM
